

Water & WasteWater Products

Automation Electric (SCADA Systems Integration - Turn-Key & Retrofit)

Data Loggers - Off-The-Shelf, Customized, Wireless, High Speed, Real-Time Capture, etc...

Hand-held Calibrators, Rotating Equipment Monitoring, Controllers, Recorders, Systems, etc...

INTERFACE (Load Cells & Instruments for Tank Weighing / Level monitoring)

JOWA / Consilium Liquid Level Gauging (Metri-Tape, AquaTape, PetroTape, & ChemTape)

Precision Digital (Digital Displays, Panel Meters, Controllers, Annunciators)

PRESSURE TRANSDUCERS (Precision Industrial & Submersible Pressure Transducers)

Temperature sensors, transmitters, controllers, etc...

			<p>Submersible Transducers</p> <p>Model 512 Industrial OEN gauge and compound pressure for corrosive media, P15 and P18 rated</p> <p>Model 524 OEN stainless, immersible to 200mg, gauge pressure for liquid level, P18 rated</p> <p>Model 526 OEN submersible, gauge, absolute and compound pressure, P10, P15 and P18 rated</p> <p>Model 528 OEN high temp, submersible, absolute, gauge and compound, P10, P15, P18, P18 rated</p>
	<p>SpikeWatcher™ Data Logger for Intelligent Remote Data Acquisition</p>		<p>Digital Panel Meters</p>
	<p>Loop Diagnostic *Patent Pending*</p> <p>LOOP POWER MEASURE DIAG CURRENT = 20.00 mA VOLTAGE = 24.2 V RESISTANCE = 0.1210 Ω GND FAULT ERROR = 0.016 mA AC V = 0.0 V HART® COMM DETECTED</p>	<p>Load Cells / Torque</p>	<p>VIBRATION ANALYSIS HARDWARE</p>

Local Application Experts:

Mark Anderson: Arizona, New Mexico and West Texas
