## Metal Sheath with Leads

Air Probe

### Probe Style

Standard ..... **SP**  
Air Probe ..... **AP**

### Lead Style

Teflon Jacket 2 Wire ..... **2TT**  
Teflon Jacket 3 Wire ..... **3TT**  
Teflon Jacket 4 Wire ..... **4TT**  
Individual Teflon 2 Wire ..... **2IT**  
Individual Teflon 3 Wire ..... **3IT**  
Individual Teflon 4 Wire ..... **4IT**  
Fiberglass Jacket 3 Wire ..... **3GG**  
Fiberglass Jacket 4 Wire ..... **4GG**

### Element

Din 385 Class A 100 ohm ..... **A**  
Din 385 Class B 100 ohm ..... **B**  
Din 385 Class A 1000 ohm ..... **C**  
Din 385 Class B 1000 ohm ..... **D**  
JIS 391 Class A 100 ohm ..... **E**  
JIS 391 Class B 100 ohm ..... **F**  
JIS 391 Class A 1000 ohm ..... **G**  
JIS 391 Class B 1000 ohm ..... **H**

### Termination

**ST** ..... Stripped Tinned  
**3M** ..... 3 Pin Mini Connector  
**3S** ..... 3 Pin Standard Connector  
**PH** ..... Phono Plug

### "B" Lead Length\*

**XX** ..... Specify in inches  
\*36" standard N/C

### "A" Sheath Length

**XX** ..... Specify in inches

### Diameter (inches)

**116\*** ..... 1/16"  
**18** ..... 1/8"  
**316** ..... 3/16"  
**14** ..... 1/4"  
\* Requires transition

### Stock Parts

D-SP-3TT-B18-06-36ST  
D-AP-3TT-B316-06-120ST

- Standard assemblies use Class B thinfilm elements and are rated from -50°C (-58°F) to +260°C (500°F). Higher temperature rated assemblies are available up to 480°C (900°F). Add "-HT" to p/n suffix.

- Dual element assemblies available in 3/16" and 1/4" diameter sheaths. Multiply base price by x 1.25 and add "-Dual" to suffix of part number.

- Air probes are 3/16" or 1/4" diameter.

### P R I C I N G

| Base Price<br>(Includes 6" sheath<br>& 36" leads) | 1/16"   | 1/8"     | 3/16"         | 1/4"     |
|---------------------------------------------------|---------|----------|---------------|----------|
|                                                   | \$89.00 | \$46.00  | \$43.70       | \$43.70  |
